

Really??

I just paid \$70 in August for a 5 year pistol permit,(Double from the previous time) and now you want me to pay every year?

You also want people to have another permit to buy ammunition, and you are going to tax that more than it is.

I think the state sees an opportunity to profit from this tragedy!! - it's pathetic! And they wonder why everyone is leaving the state??

Neither one of these proposals would have or will prevent another shooting.

How about enforcing the laws we have now, they are among the most strict in the country.

Chicago and Washington D.C. have the most strict laws, how safe are those cities?? More laws aren't the answer!!!

Do you know that guns are totally illegal in Ireland.....That small place has a higher stabbing rate than all the U.S.

So, maybe they should outlaw knives??.....

A car bomber uses cars to kill people....should we ban cars?

Or maybe, publish the names and addresses of all the permit holders. That worked out well in a town in New York, it was a road map for criminals were to go when they wanted to steal a gun.

COMMON SENSE!!.....but look who I'm talking to.
