

I want to make this one short. My message is clear. I am pro the 2nd amendment, and against new controls implemented on law abiding sportsman and citizens of this state. The criminals are not going to follow the law, as they violate law at every corner and turn already. I challenge someone to follow and research the state and federal court convictions on gun related arrests by the police.

With all the media the last month since Newtown, I have not heard from the press anywhere that Adam Lanza is responsible for the senseless murders. Everyone is blaming the gun, but the media will not emphasize the person who pulled the trigger. The gun is a tool and a cold object, that must be operated by a human being.

If people get killed by drunk drivers operating a motor Vehicle, do they mention confiscating the car, putting restrictions on the car, banning the car ?? Of course not, they strengthen the law on the driver, the operator. In this case (Newtown) the shooter is the one responsible for the deaths.

Please look into the mental health issues, the poisoned youth in todays society, where the video game is killing the most people to win, and movie violence.

We currently have Federal and State protection for law abiding citizens for firearm possession. Please do not affect the citizen who hunts and recreationally shoots, and wants to protect his home and family. Convict the bad people who walk the streets in the revolving court doorways.

Thank you very much,
Bill Myers
