

Dear Sirs,

I was very saddened and disturbed by the Sandy Hook shootings as well as others of it kind. My heart goes out to the children, families and communities affected.

But I am appalled at the misguided bills being considered to restrict or outright ban guns as the solution! Focusing on these extreme reaction type efforts severely punishes the law abiding citizen, tramples on constitutionally guaranteed rights, and ignores truly viable ways to approach the problem.

PLEASE, PLEASE, PLEASE infuse REASON into this process and eliminate discussions, efforts and bills that hurt the law abiding citizens that you are sworn to represent.

Sincerely,

Bob Breault
