

For a Free America:

"Never let a crisis go by without trying to exploit it for our agenda". Remember B. H. Obama's reasoning for governing? The new initiative is an attack on the 2nd amendment, the 2nd most important amendment in the Constitution. According to Thomas Jefferson, the amendments were numbered according to importance to the forefathers to prevent Governmental oppression/control and to maintain freedom for it's people.....period. Everyone says the 2nd amendment to "Bare Arms" is to protect your family, house or to use the gun for sport. In those days, guns were not considered a sport so that theory does not hold water. The 2nd amendment was written to allow the people to overpower an oppressive government to maintain freedom for it's population and that's it. I find it troubling that no one is stating what the 2nd amendment is truly about. I'm reading a Thomas Jefferson book right now and he discussed the writing of the Constitution. He said that the countries most people came from were oppressive. People could not talk ill of the kings or governing bodies or else they were beheaded, hence that is why we have the 1st Amendment and is considered the most important, which is also under attack from Obama administration as we speak. In those countries if people wanted to overthrow an oppressive government using weapons (baring arms), again they would be all killed and considered enemy of the king or government. This is why we have the 2nd amendment to maintain freedom from an oppressive government. These new laws being initiated by the Liberal side of our Government, which by the way is a criminal offense, will do nothing to provide safety for people (I think Obama/Malloy are going to use executive order to force their beliefs regarding the 2nd Amendment). A good example of gun control and how it doesn't work is in South Africa, no guns allowed but there is still high levels of shootings and murders significantly above the average for all countries. The liberals tried to "trick" us with Fast and Furious and it back-fired on them (killing over 500 Mexicans and 1 American Boarder Patrolman, which we still have answers today), again, to try and get gun control (the word control is their purpose). Obama's belief is never let a "crisis go by". Newtown, Colorado shootings, etc., was the crisis and now all the liberals are pretending they "care" about innocent Americans and want to protect them. Look at the states that do not have gun controls and they have the lowest murder rate compared to states with extensive gun control. Obama's Chicago has the highest murder rates regarding guns. Having extensive weapons in it's population has also made America safer because other countries would have a difficult time trying to attack and occupy us. Why is it Obama is willing to give terrorist guns without checking out their backgrounds but not allowing the same belief for his own citizens? If these Liberals "truly cared", they would go after Mental health issues, starting in schools where all the teachers know the "odd", "different" or "troubled" children. These kids need help that early and need to be taught right from wrong, and how to believe in themselves to gain confidence and how to love and be loved..... No, they turn their backs on these children and our schools rather change the truth about our history to push an agenda.
