

My name is Brad Eggleston and I live in Newtown, CT.

Please, please, please make change to prevent gun violence. Myself, my family and my town has been broken due to the tragedy on 12/14. I don't want this to ever to happen to anyone ever again. The longer we wait to make change the more likely something else horrific will happen somewhere else. Trust me when I say that the only way to feel the true impact of this sadness is to be directly effected and I have to tell you, I wouldn't wish this feeling of hurt on anyone else.

Please make change.

Thank you

Brad Eggleston
