

Dear legislators:

I am writing to express my serious concerns with gun violence in our country, and more specifically, our state.

I am a Newtown, CT mother of 4 (ages 10,9,9 and 7) who is heartbroken beyond words about what took place in our little community on December 14, 2012.

Please, we urge you -- please consider instituting tougher laws for those trying to acquire guns. Please ban assault weapons. Please limit the number of rounds a magazine can hold.

Though I do not choose to own a gun, I support the 2nd amendment and do not wish to ban ALL guns. But I know as a country we can do better for our children. We can do better for the parents who lost their most beloved asset on 12/14. We can do better for our future.

Thank you for your consideration.

Sincerely,

Brandy L. Jacobs
