Connecticut General Assembly
'Gun Violence Prevention Working Group'

My name is Brian Griffith.

I am a:

Life-long Shelton, CT resident

Husband

Father of three daughters

Homeowner

Private businessman

And I own firearms

The General Assembly must recognize who was responsible for the Newtown elementary school shooting.

The mother of this murderer failed to secure those firearms as required under current Connecticut law. Then her son stole those firearms and committed this despicable act.

This cowardly mass murder was perpetrated by a deranged individual who was totally unaffected by multiple gun laws.

I appeal to the General Assembly: Do not blame me and responsible gun owners for the acts of criminals!

best regards
Brian Griffith
