

Dear Sir or Madam,

I am writing because I think this is so important, I want stronger gun laws to protect my family. My son is a kindergartner and there are days I lose sleep over the safety of the school, and my Sister in Law is a music teacher and it could be her , it could be anybody next.

The US has become a 3rd world country in that there is gun violence everyday used against communities, lets END THAT.

thanks,  
Brooke Kalter
