

To Committee Members

I asked that you carefully consider all reasonable means of eliminating the kind of lethal violence that is destroying the way of life we have come to expect in our State and our country. That we can walk our streets, attend our community events, be in public spaces and send our children to school without the fear that terror will visit us in the random way it visited Newtown.

Please consider that prohibiting high capacity magazines would be a healthy step in the right direction. Thank you and I look forward to your success in this endeavor to return sanity and safety in gun ownership and gun use.
