

My husband and I have lived in Sandy Hook, CT for 24 years. Both of our children grew up in Newtown and are proud to be called Sandy Hook elementary school alumni.

After the tragedy of 12/14 in Sandy Hook, other mass shootings in the US, and the daily killings due to guns on our streets, we can no longer stand by and assume someone is watching out for the safety of our children or citizens of CT and US.

I propose CT and US places into law an immediate ban on the sale to non military of semi automatic guns/weapons and retrieval of all semi automatic weapons (referred to as assault or military style weapons).

Ban large capacity ammunition magazines of more than 7 rounds and make it illegal to own anything larger with a time frame to turn them in/buy back.

Require permits and universal background checks for ALL sales and transfers of guns Require registration of all guns with annual renewal Make gun owners responsible for any injury caused by their guns Require permit to buy ammunition
