

To whom it may concern,

I demand strong gun regulation be passed for the state of Connecticut!!! People can still own guns but please let's make it much harder for irresponsible and/ or mentally ill people to access them! I live in Redding not six miles from Sandy Hook. If you want another Newtown to happen then by all means do nothing because it will without action. Ban magazines that hold more than ten rounds, make storage of weapons a top priority and make sure there is a background check and data base to track owners of weapons. I do not own a gun. I never have wanted to. My right NOT to bear arms should be protected as much as those who choose to. For pity's sake! I have to fill out forms, get multiple references and have a home visit before I will be considered a candidate for a rescue dog. Why aren't we more thorough with guns??

Do this now! If you do not I will vote next time around for someone else who shares the same sane objectives!

Sincerely,

Cecilia Staunton
Redding, CT
