

Thank you for the opportunity to share in this historical moment.

I have found that in each pivotal point of crucial importance, wherein our country has come to an impasse requiring change; a time that dictated and demanded a shift in our moral conscious and our humanity; has called for a people to rise up; To MARCH for a cause for equality and justice for ALL, each instance there was a Barbaric nature involved... and a **GUN** behind the reason.

The NRA will say that "GUNS don't KILL people, PEOPLE KILL people", and I would challenge the NRA to place their child, their loved one in the place of those who have come and gone at the hands of a gunman to then restate this cliché of a phrase. I don't think it would say the same.

I follow the DREAM and I DREAM the DREAM and I am the DREAM. Living life purpose driven and answering the call of humanity....wherever it leads me unto justice for all mankind.

Having said this, I am so proud and humbled to have been in the company of like minded people. People who want to leave this world a better place than which it was found; People who know within their own souls what is the RIGHT thing to do and are unafraid to show up and stand up!!! Trailblazers for a Brand New World! A World where Harmony means everything and Judgement is unavoidable.

Let us all remain steadfast, unmovable in this call for action!
