

Please note the extensive documentation. Much anti gun propaganda ("documents") circulating are from individuals and known liberal, biased sources expressing their opinions, not facts.

I know that, as usual, people who disagree will just dismiss this.

We will never alleviate the violence unless we are aware of facts. Passing the same ineffectual laws will never do. "Doing the same thing over and over and over again expecting different results is the definition of stupidity".

We don't blame cars for auto fatalities, we don't blame cellphones for auto accidents, we don't blame alcohol for any fatalities, we blame the user. Why is it politically correct to blame the guns?

I hope the politicians, who are hell bent on protecting their positions by catering to the hysterical people, will do the right thing and blame the criminal, not the law abiding gun owners.
