Enough is enough.

In less than 3 months we, my family & friends, have been effected by gun violence too many times.

Our dear friend, Gordon Swisha, was killed on his way to work, out of the blue, by his disturbed brother.

Not a month later, the Newtown massacre happened.

Again....friends & families lost their loved ones, for no reason....and their lives are now changed forever.  
Heartbreaking.

There is just no reason for anyone to carry or own a gun other than the military or police. Simple.

I want my voice heard that I am strongly against guns.

I believe in banning assault weapons, automatic & semi-automatic weapons.

I also believe in banning high caliber magazines.

And it is a MUST that there are stronger background checks.

I hope my voice makes a difference and that my 2 young sons grow up in a safer world.

The madness must stop.

Regards,

Christina Lundell Baker
