

I have 3 children and was unable to get to Hartford yesterday so therefore am sending in my testimony via email. I have been a teacher and a coach in Wilton CT for 12 years. I cannot imagine the terror our friends in Newtown experienced over a month ago. Please do NOT let this opportunity to make a difference slip away. Something said on Meet the Press really stuck with me – that one man tried to blow up a plane with a shoe bomb and now everyone has to take their shoes off at an airport. How can this violent act toward children NOT change policy???

Please be brave and make the necessary changes to at least help start our state and country on a road to safer living.

Thank you very much,
Cindy Wiseman
