

Dear; Members

We all agree that what happened in Newtown was horrific incident! And certainly we can all agree that the perpetrator was mentally deranged. Now that stated as a law abiding non NRA member tax paying citizen of Connecticut, with all the other pressing issues we face as a state is there anything more pressing than trying to restrict my second amendment rights!

Is it too much to ask for you to be working on jobs! Or reducing the size of the state government! Reducing regulations on business! You are wasting tax payers' dollars on people's emotions. Using the death of small children. To try and take away our second amendment. The government is using a tragedy to try and take away the rights of the rest of the people in the United States. The GOVERNMENT is killing their own people. By taxing us to a slow and painful death. What kind of future do we see for our children. WE won't HAVE ANY THING TO LEAVE TO OUR CHILDREN AS DEMANDED BY GOD. The government is getting so greedy. SO BIG. Draining the rest of us that are working so hard to take care of our responsibility's. The government is taking the money out of my pay check that I needed to pay my property taxes. Every week. \$30.00 MORE DOLLARS since this new year started. Happy New Year's AMERICANS. That little trick Obama played on us Americans by claiming he was going to only tax millionaires and billionaires! He is really after the middle class tax payer! Thanks for your consideration.

Daniel T. Boone
