

Dear Elected Officials,

I am a gun owner and I stand for the second amendment. I completely oppose any new gun laws. I say this because gun laws only effect people like me, the law abiding. Criminals do not care about which laws are made. If you ban more weapons or more specific guns, the criminals will still have them but I will not. You will effectively give the criminals an even larger upper hand. I can not stand for this. It is my rite to protect my family and myself.

Furthermore, a limitation on magazine capacity has all ready been attempted at a federal level and still continues at a state level. In both cases, no evidence can be found that it has reduced any crime of any sort. With this fact and the fact that home invasions of multiple intruders are increasing, I can assure I NEED my standard 30 round magazine.

In conclusion I may seem unwilling to compromise but I already have. Our state already has an assault weapons ban. I am already limited to the weapons I can own. I can not keep giving up my rites. I can not keep giving the criminals the upper hand. Please stop trying to stop crime by limiting the good and honest people that make our country great.

Thank you for your time,
Danielle Incarnato
