

First off let me thank you for actually holding a public hearing and listening to your constituents before rushing through draconian laws that violate our Bill of rights as laid out in the Constitution of the United States of America. I do hope you uphold your oath and continue to defend it.

That being said, i think it was shameful the way you paraded the families of the Newtown massacre victims at that hearing. My heart breaks each time i hear their story and as a father can not fathom their loss. That being said, you are failing to address the real problem here. I object to any further bills being passed in the State of CT that would further limit my rights and my ability to protect my family.

The supreme court has already ruled that when the police respond to a 911 call, they are not held by law to protect my family! The suggestion that limited a Standard Capacity Magazine (there is no high capacity supplied by the manufacturer with purchase) from 17 to 10 rounds that police should be exempt from that off duty. Is there family more worth defending than my own?

You are failing us if you pass this legislation through before the official report of this horrific event is even finished. You are failing us when you cut mental health care programs or make that care too expensive for people to get.

I ask that you listen to all testimony and that of the people that allow you to server us before making a knee jerk reaction.

Regards,

David J Nemeth  
Voter in the state of Connecticut
