

To Whom it May Concern,

My name is David Suarez. I am a husband, father, business owner and most of all a law abiding citizen here in the State of Connecticut. Once upon a time when I was a little kid we use to sleep with our doors unlocked, but in the times we live in now and the crime as high as it is we now have to lock our doors, have an alarm on the house and cameras around the house and property, just so my family and I can sleep in peace. No we do not live in the city, we live in the suburbs where it is supposed to be safer to raise a family, but with all the home invasions that are occurring daily my guns are my last line of defense against the bad guys to defend my family. It is the law abiding citizens like myself and my family that we have to worry about all the criminals that roam the streets today more then ever before. Believe me I have lot of faith in the police. Two of my brothers are former NYPD and I have lots of friends who are police officers, but they do not stop crime from happening if they could we would be living in a better world today. So I implore you to reconsider your ideas of unarming us law abiding and tax paying citizens who help pay your salary. You will be doing more harm then good by leaving us defenseless.

Sincerely,

David Suarez
