

Let me start by saying my heart goes out to all the family's of newton ct. But let be real. No new gun laws would have stop this. Criminal's don listen to the law. All gun control will do is hurt the good guys. Look at why this all happens in gun free zones.bottom line his mother is to blame. He should never had access to her guns. That and mental illness needs to be address. Thank u A pride gun owner
