

Hello,

Thought you might be interested in this. A MoveOn Petition started by some teens who have created Second Amendment Sanity, an organization that hopes to reduce gun violence by speaking out about the marketing of semiautomatic rifles and other guns to kids (how the NSSF and NRA support this) and supporting the idea that the 2nd Amendment belongs to everyone, the way it's interpreted should be debated and discussed openly. My son is part of this group.

Thank you,

Diane

-----

The National Shooting Sports Foundation is located in Newtown, CT. Even after the devastating loss of innocent life right here in their own town, this organization refuses to support federal universal background checks. The NSSF is the #2 Gun Lobby in the US. The vast majority of Americans are in favor of federal legislation requiring universal background checks that would close the "gun show loophole" in every state, as well as other "private" transactions that allow people to obtain firearms without a check. The NSSF is fighting against such a change. We demand the NSSF tell Congress and Newtown that it has had a change of heart and supports universal background check legislation.

That's why I created a petition to Steve Sanetti, President, National Shooting Sports Foundation and Lawrence G. Keane.
