

My name is Dina Klein Lunder and I am a resident of Greenwich, CT. I have two small boys, ages 5 and 6 who attend The Whitby School in Greenwich.

Not a day has passed since the Newton massacre that I have not thought about the 20 first graders and their educators who lost their lives and how their families are impossibly surviving without them.

Every time I kiss my children goodbye at their classroom doors and leave the school I am uneasy. Why should any parent have to be uneasy after sending their children to school for fear that they may be hurt by a madman with a gun? Why should American citizens have to think twice when going to a movie or a shopping mall or to a place of worship?

This is MADNESS.

No citizen needs a military style assault weapon. High capacity assault weapons were designed for soldiers in battle!!!! We are the only country in the world that allow access with virtually no checkpoints--WHY???

PLEASE DO THE RIGHT THING--support stronger gun control laws.

Don't sell out to the NRA. The majority wants CHANGE.

Come Election Day, we will be one-issue voters over this. Do the right thing.

Dina Klein Lunder
