

Hi I'm Dontario Harris I live in memphis tennessee. And I have a solution that will solve the problems of people having high powered weapons ect... The answer is INSURANCE, it will make someone liable if someone fills out and decides to shoot up a school or any place. I believe if someone knew they had to pay insurance for a high power weapon they wouldn't buy it. So for the people who have the guns already make them pay insurance if they don't like it they can get rid of it. And please bring to the attention of people who buy guns from other people and don't go through a back ground check. Make that illegal to sell a gun to someone with out proper checks. I would really like for this to be announced tonight PLEAS PLEASE PLEASE!
