

Dear Elected Officials,

We need to reply to the NRA with the question, “Would you give up your gun to save the life of a child... or 20?” For every life, every child, regardless of where they live, is precious. Indeed, every person, regardless of age, is precious. It is very sad it that took the lives of 20 to move us to finally try and protect the life of even one. But now IS the time to stand up for what is RIGHT.

I regret that I can't be in Hartford today for the march, but add both my husband and myself to the number of people who support sweeping Gun Control.
