

***To: Connecticut Bipartisan Task Force On Gun Violence Prevention***

I am writing to encourage you to adopt the draft of legislation submitted by CT Against Gun Violence.

This comprehensive package of gun violence prevention measures is absolutely essential if we want to keep our children and communities safe from the kind of mass massacre which occurred in Newtown.

Connecticut residents expect our elected legislators to rid our state of assault weapons and the high-capacity magazines and warfare ammunitions that feed them. The burden of protecting Connecticut's people from gun violence is in the hands of our legislators: we expect you to exercise the power of protecting us by supporting this legislation.

Respectfully,

Faith Sommerfield
