

Dear Legislator,

I would like to voice my opinion on pending gun legislation before the Connecticut House and Senate. I am opposed to any legislation that would ban semi-automatic weapons, limit the number of bullets in a gun magazine, publish the names and addresses of pistol permit holders, increase the tax on ammunition or limit any of my Second Amendment rights. I am in favor of background checks prior to the sale of modern (made after 1900) firearms.

Thank you,

Fred Cesana DVM
