

This Bill trying to be passed by Connecticut's legislators.... will do nothing to deter criminals from committing crimes with guns. It will only hurt law abiding citizens who own guns in the state of Connecticut. Not only that but it will hurt businesses dealing with guns and ammunition in the state of Connecticut. Gun owners will only go across state lines to acquire their ammunition. No reasonable person is going to pay a 50 percent tax on there ammunition. Please take this under consideration. As we are innocent victims... being blamed for the few mentally ill psychotic crazy individuals out there !!
