

I am writing to beg and urge you to consider stricter controls and safeguards to be put in place on access to guns.

I have 3 small children and I am terribly afraid of the current laws as they allow too many individuals access to guns who are using them to harm innocent people.

I urge you to put in place stricter requirements on those wanting to purchase guns, bans on assault weapons, much stricter background checks for individuals wanting to purchase guns, bans on magazine and high round ammunition and assault weaponry.

We have been brutalized as a state, our hearts are broken and scared. Your constituents are pleading for you to do something to protect us and our children!!!

Sincerely,
gayle greenberger
