

Gentlemen,

Please remember the wording of the 2nd amendment of the U.S. Constitution. More control measures are worth examining such as universal background checks and serious prosecution of criminals who use guns in crimes. Also, if Mrs. Lanza had her guns secured properly her killer son would not have had access to them, and Newtown would have been avoided. She was also guilty. Disgusting and frightening are video games and some Hollywood movies filled with violent death and destruction which our kids see and can prompt unstable persons to commit murder.
