

Committee Members,

It is my request that a direct vote be conducted on a single issue bill that would prohibit any private citizen of the STATE OF CT from possessing any high capacity bullet clips in excess of 10 bullets in our State and to offer to purchase any such clips at a fair market value up to a certain date owned by CT citizens. Thereafter anyone found to have such clips in their possession would be subject to fine or a prison term. Any use of such clips at shooting ranges would also be prohibited.

Thank you for your consideration of this issue, Harry R. Jones, Granby, CT 06035 Sent from my iPad
