

Please consider this prior to your noon deadline, today.

As a mother of two elementary school boys and the wife of a Connecticut teacher, I urge you not to give in to the pressure from the powerful gun lobbyists.

PLEASE keep our schools safe and our children safe by adopting gun laws that require background checks, and more, so that Connecticut's children can attend school in a safe, non- threatening environment, as it should be.

Schools are supposed to be a safe haven for our children, not a place of fear. Loosening gun laws will only increase the danger to our children and our teachers. PLEASE make Connecticut's gun laws as strict as possible and give peace of mind to Connecticut's parents and educators.

Thank you for your consideration,

Mrs. Illya Berecz
Fairfield, CT
