

To All State Senators and Representatives:

Please help to pass sensible legislation regarding gun control in Connecticut. Ban military type assault weapons and high capacity magazines. Require a criminal background check for every gun sold. Raise the age for purchasing guns to age 25. I was a Kindergarten and First Grade teacher in Darien for many years. Were I to be teaching now, I would fear for the lives of my twenty eager, trusting, young children. I live with the horror of this happening again and again, only now it is my grandchildren who are the Kindergarteners and First Graders in the school. Please protect them. Respectfully, Inge Maerowitz
