

Thank you for taking the time to here from another concerned Gun owner from Durham CT.I really wanted to weigh in if I may And let you all know I strongly oppose any and all restrictions on what firearms can be owned in this state and the of number rounds that any given gun may hold in their feeding devices .

Not to take up a lot of your time I feel there are some things that could be done to insure that the wrong people don't get their hands on any guns. The one thing I would recommend is adding an "assault weapon "endorsement to the pistol permit this would be similar to the CDL driver's License in that in order to get this endorsement to purchase and own assault weapons as defined by CT. law you will need to own a gun safe or locker with a key lock minimum and this is a win for all parties as there will now have allot more guns locked up where Evil people don't have the access. Just think if Adam Lanza's mom had here guns locked up as they should have been we would not be having this conversation right now. I feel with the strongest of conviction that the proposal above will net much greater results then say taking away pistol grips bayonet lugs and or threaded barrels. This also will appease the pro-gun crowd as they again with their endorsement will be able to collect the firearms that only people in other states can collect.

NO one wants what happened in Newtown to happen ever again ,but we all need to work together and come up with real solutions not just punish law abiding gun owners to make CT residents feel safer nothing we do can bring back those Angles and if I thought for one second I could Id Melt my prized gun collection tomorrow.

Thank you for taking the time to here from me And I hope we all come together and stop this witch hunt against people who did no wrong and will NEVER do any wrong

Thanks again
