

I am support of reform of gun laws. There must be background checks on all owners and sale must be prohibited to those with mental health problems and criminal record. Also, the sale of guns at the gun shows should be prohibited because these background checks are not possible. In addition, the burden of proof to show proper locked storage of their gun should be placed on all gun owners.

This has gone too far - guns are a public health crisis.

Sincerely,

Jackie Lucido
