

Criminal use of guns is going unpunished in epidemic proportions, allowing repeat offenders to commit almost all of the violent gun related incidents. Please enforce existing gun laws before adding new ones.

Gang violence and home invasions are the real problems, not law abiding citizens exercising their right to protect and defend their families from criminal activity.

I oppose any further restrictions on law abiding citizens who own firearms in Connecticut. Nothing that has been proposed in the current session would have prevented the horrible event in Sandy Hook.

Respectfully,
James Hackett
Cheshire, CT
