

I am writing to request the proper procedures be followed and full public hearings be held for any proposed legislation coming from the committee.

While not surprised, I am disappointed by the Governor's grandstanding and making public recommendations ahead of the bi-partisan committee recommendations and even final police reports. When the facts are not in his favor, I guess he felt the need to play on emotion and political opportunism. Sad but predictable.

Please ensure proper procedures are followed.

Thank you.

James Hill
