- Understand the law before you try to change it
- Understand the licensing requirements before you judge law abiding gun owners
- The NRA is your partner. Embrace the relationship and work with them
- Enforce the law. Criminals break laws. They will NEVER abide by your legislation
- Focus on the problem: Mental health, illegal gun ownership and irresponsible behavior
  
- Responsible gun owners are not different than car collectors:
  - We like and appreciate beautiful things that are cool
  - We pay for them legally
  - We enjoy our sport
  - We can afford to have an ample supply of them
  - We brag about what we have especially when it's unique
  - We shouldn't be punished for owning anything that's legal:
    - Do we ban the purchase of Ferraris when we all know that they are designed for speeds well over and above the legal speed limit. Is that what's next?
