

I am from Newtown, CT so I feel very strongly that we need stronger gun laws. We must take the steps necessary to make sure that guns cannot get into the hands of mentally ill people or into the hands of people who want to commit violent acts. We must take the steps necessary to ban automatic weapons that have no real use other than to kill people. Please act responsibly and take the steps necessary to ensure that we never see the loss of innocent lives like we did in Sandy Hook. Thank you.
