

Honorable Members of the Gun Violence Task Force,

I am a 64 year old law abiding constituent that would like to request all relevant testimony and data be considered before any decisions are made (New York was so anxious to pass new laws that they left out exceptions for the off duty Police Officers among other things). The State Police Report on Sandy Hook should be part of this decision along with testimony from both sides of the "argument", you might find more lives are saved by law abiding armed citizens than are taken by criminals .

Finally please , make sure any laws that might be passed include everyone not like the Senator Feinstein bill. I find it appalling honest , law abiding citizens are constantly being punished for unlawful acts of criminals.

Thank You For Your Time,

Joe DeFilippo

Northford,CT
