

Dismantling the Constitution of the United States of America is simply unconstitutional. We need to find a way to keep weapons out of the wrong hands leaving them in the hands of law-abiding citizens. Limiting the capacity and capability is not the answer, for is not one life one to many be it by gun, knife, or stick. Anything in the hands of a sick mind with intent to cause harm is an assault weapon. We claim we do not negotiate with terrorists yet here we stand negotiating our Constitution due to a terrorist act. I urge Congress to up hold the Second Amendment and honor the Constitution of the United States of America, for this is a great honor and privilege for us as Americans. It is our duty and job to make the people believe in the Constitution, not be afraid of it and tear it apart.

Joel P. Klusek
