

Based on all the excuses I heard and read so far, this push for quick so called gun control laws and restrictions on law abiding conceal carry permit holders is nothing more than a radical scheme to eliminate the second amendment in our country! The proposed laws are targeting all fire arms under the shameful disguise of “doing something for the Newtown, CT tragedy”!

This has absolutely nothing to do with that terrible tragedy. Look into our handling of mentally sick people. Set up the proper background checks that would incorporate mental illness in that check BEFORE instituting the law and totally stopping the sale of firearms because the system can not handle your checks and balances!

Follow our constitution as you swore to uphold when you took office!

God bless America and our elected officials, so that they do not infringe in our freedom and destroy our constitution in the name of “helping avoid a tragedy”.

Sincerely,

Juan Rodriguez
Waterbury, CT
