

To Whom It May Concern,

I am a concerned parent in Fairfield County, CT; the day of the Sandyhook tragedy I reached out to every level of government I could to voice my concern and ask about what we can do as a Town, State, Nation to change the dialgoue about guns in our country. I have two young children and will not sit back and let the right of a few (those that choose to have magazine clips and high powered guns) start to infringe upon my right for to feel safe in my community.

This is not a political issue, this is a common sense issue. I am an independent voter and have voted across the aisles.

My view is we need to limit access to high powered clips/weapons that have military style capability. I am a firm believer in the 2nd amendment, just not with the technological advances that allow mentally unstable people to mow down large swaths of people in a nano second. Additionally I would like to see every gun owner go thru a background check (if we can have a healthcare system where people are tracked we can have gun owners go through tracking). Enough of the loopholes.

Mrs. Kara Ash
