

I support stricter rules about guns. I live 30 minutes away from Newtown in Fairfield County and am the mom of a five year old. In recent weeks, there have been two domestic violence shootings affecting our community, one fatal to a public school teacher in our town. We need sensible rules like background checks and no loopholes. We also need to address how young adolescents get identified as needing mental health care and meeting those needs. Thank you for your attention to this critical issue.
