

Dear Elected Official,

1) A weapons ban will not deter criminal use of guns. Contraband weapons and ammunition abound and are easily obtained.

2) I would propose a "school marshall" program for protection of our children in school much like the "air marshall" program the airlines use. Non uniformed, armed and trained agents of the law mingling with the staff of the school. Non uniformed so as not to make the children and staff uncomfortable with the presence of a protector, and so that a terrorist cannot easily identify the protector.

3) US citizens have the right to be armed. See the 2nd amendment.

Sincerely,

Lee A Dinwiddie DVM  
New Milford, CT
