

Dear Honorable State of Connecticut Senators and Representatives

- 1) Emergency Certification on firearms related bills is not the correct use of our legislative process.
- 2) We deserve hearings on specific firearms bills that are raised by a committee only.
- 3) Oppose any bill that comes to the House or Senate via Emergency Certification.
- 4) Please remember you work for your constituents of Connecticut, and that you are tracking what they do and how they vote.
- 5) We do not need additional gun laws. Enforce the current laws and lengthen prison sentences for criminals that conduct violent acts.

Please remember Connecticut is nick named the Constitution State.

I would appreciate your feedback.

Sincerely

Lee Reopell  
New Haven, CT
