

hello  
my name is  
Leon Kloepner  
Ansonia, CT

I would like to submit testimony in opposition of against any new gun laws.

As you know we already have some very restrictive laws on the books including the weapon ban from 1994 adopted as state law. we already have required back round checks on gun purchases, even at gun shows. The rifle used in Newtown was legal in 1994 and is still legal now. It is naive to think a 10 round magazine limit would have prevented these events.

I don't feel I need to justify ownership of any firearm,magazine or ammunition because it would imply the unconstitutional infringing of the second amendment is acceptable.

One more I would like to state my opposition to any new firearm laws.

thank you  
Leon P Kloepner
