

We are the most violent society in the western world. An embarrassing statement surely for the leaders of the free world. My children are not safe from gun violence. I am not safe from gun violence. It is the government's responsibility to regulate arms and make sure all citizens are free and safe.

PLEASE, create sensible gun laws. Offer people a generous tax credit for giving up guns. You owe it to us and everyone effected by senseless gun violence but, especially to all those beautiful angels in Newtown, CT who were gunned down to early in their lives.
