

My name Lisa Somer, I live in Wilton, Ct with my husband and two school age children. Our hearts were broken by the tragedy in Newtown and continue to be broken as we hear of more Gun Violence. We believe in the 2nd amendment but demand tighter regulation on gun ownership. Background checks need to be stricter and part of every gun purchase. Assault weapons are meant for wars and should not be on our streets or in our schools. High capacity clips enable mass killings very quickly and destroy the bodies of the victims. Banning assault weapons and high capacity ammunition clips from civilians is critical and must be part of the new laws to prevent gun violence.

Please pass sensible laws to prevent gun violence and keep CT families safe.

Sincerely,

Lisa Somer
