

You have probably heard this many times, but I have never ONCE heard a legitimate reason for owning an assault weapon.

I understand the right for a citizen to protect themselves, but that should be possible with 1 bullet. Why would any more be EVER necessary? It has nothing to do with the right to bear arms, it has to do with being able to wipe out many random people within a minute. What about the right of those innocent people?

Thank you for doing this!!
