

The attach letter was sent to my CT Rep and Senator. I was disappointed that neither showed up to the Rally on the Capital Steps today, just 2 months after the tragedy at Sandy Hook.

Had they been there, they would have come away with a better understanding of the urgency of this issue. I am disappointed to hear that the opposition is so organized that our Government Representatives are hearing from them at a rate of 100 to 1. Simply too bad that those elected by us don't recognize what is the "RIGHT" thing to do but would rather take money from the Gun Lobby. Do not continue to believe that you will get away with this. The silent majority are beginning to see what has been going on and will not stand for it. If you think your seats are at risk by ignoring NRA leadership, think again. This NRA is not my father's NRA and soon more of their reasonable members will see it too.

I also sent similar versions to my representative in Washington as well. I will continue to make my voice heard and encourage others to do so as well.

I pray that The Committee for a Safer Connecticut is successful in making positive changes to our laws.

Thanks Lori
